The STILL Classic Line.
Just what you need.

"When we were looking for the right supplier to set up our new logistics centre, we finally found a partner in STILL whose wide range of industrial trucks and intralogistics solutions also met our requirements."

Andreas Gesse, Operations Manager Logistics Center U. I. LAPP in Hanover, Germany

STILL PRODUCT PORTFOLIO

Custom solutions for smart intralogistics

At STILL, we believe that smooth material flows require solutions that are not only innovative, but also precisely tailored to your individual needs – in terms of performance, equipment, and appropriate sizing.
That is why our portfolio is as diverse as the needs, circumstances and objectives of our customers.

Our range extends from manual **trucks** for a variety of applications to fully automated, integrated intralogistics solutions. We offer everything from individual consulting and scalable **automation** for companies of all sizes to efficient energy systems, smart fleet management solutions and modular **services**.
Together for success: We provide expert support and partnership to help you achieve smarter efficiency and optimise your internal material flows exactly to your requirements.

MAKING INTRALOGISTICS SMART. X TOGETHER.

Every day you give everything for your customers. Your commitment guarantees success. This is why your internal logistics processes need to work. Without any problems. Just like that.

Things will run smoothly with us because we have the smart trucks, services and networked systems that you need. They are easy to use, safe and ensure availability at all times – and they therefore save you a lot of time and money.

Our experts know what will work best for you. They speak your language. They also know that things are changing quicker than ever before in logistics. This is why we are already developing sustainable solutions for you today that you will need tomorrow. This is our job, and has been for over 100 years.

There is a lot for all of us to do.
Let's just do it. Let's be smart about it.
Let's do it together.

THE CLASSIC LINE

Just what you need.

ERGONOMIC, SIMPLE, SAFE – 100 % STILL.

Do you have moderate stacking and transport tasks and are looking for a helper that simply does the job? Welcome to the Classic Line from STILL. Forklift trucks and warehouse technology just the way you want them: robust, reliable, ready to use - and at an attractive price. Available at short notice. And you can even order them online. If that's not smart!

Classic Line

STRAIGHT TO THE GOAL.

Your business is sometimes complex enough - in the warehouse you want it simple and straightforward. That's exactly what the Classic Line is designed for. Equipped with STILL quality but standardised features, these models reliably do their job. They are intuitive to operate and easy to maintain. Ideal for occasional or single-shift operation.

DON'T WAIT. JUST START!

Time is money. With the Classic Line, you enjoy the invaluable advantage of short delivery times: Generally, your new forklift truck or warehouse equipment will be with you quickly so you can get to work right away. Another advantage is less complexity: A short familiarisation is all it takes - and you're ready to go.

SERVICE WITHOUT COMPROMISE.

The products of the Classic Line are as simple and streamlined as the service behind them is comprehensive. Whenever you need a service technician, a spare part or just some good advice: The extensive STILL service network is at your disposal with a technician nearby. They will also be happy to advise you on all aspects of your intralogistics and are always there for you after you have made your purchase.

STILL.SHOP. FOR THOSE WHO WANT TO GET A HEAD START.

It has never been easier – or quicker. We call it smart. Our Classic Line products are available in the STILL Online Shop. Make your choice and we'll deliver your new truck quickly and efficiently.

RCE 15-20

Simply fits.

RCE 15-20

Electric forklift truck

up to 6,500 mm

up to 2.0 t

up to 16 km/h

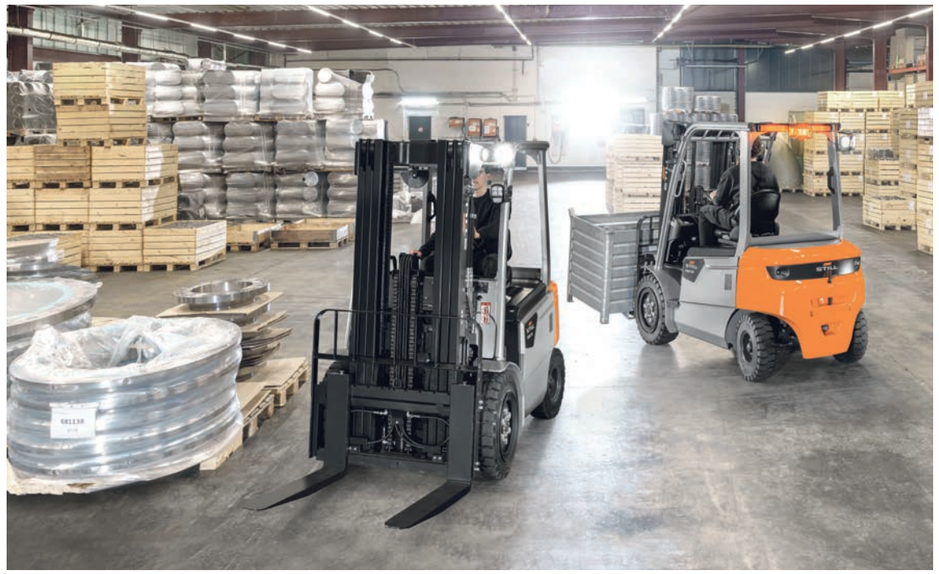

Li-Ion INSIDE

Are you looking for a straightforward, safe vehicle for occasional, moderate transport and stacking? Then the RCE series is just what you need. Available in two series and equipped with all the features a solid helper needs: power, robustness and efficiency, yet low maintenance, intuitive to operate and quickly available.

+ Simply good: RCE forklift trucks take up to 3.5 tonnes easily and efficiently to where they are needed - with a lift height of up to 6.5 metres.
+ Simply fits, even when things get tight. The RCE 15-20 series in particular is designed for fast manoeuvring in confined spaces. With a width of just under 1,120 mm, these compact three- and four-wheel forklift trucks fit into even the narrowest of aisles.
+ As if you had never driven another forklift truck before: All RCE models feature an intuitive operating concept and an ergonomic workplace that can be adapted to individual requirements. The spacious footwell ensures a fatigue-free leg position.

RCE 25-35

Does its job. Period.

+ No compromises when it comes to safety: The RCE series meets the high safety standards you expect from STILL. In addition, the trucks can be equipped with optional safety features such as panoramic mirrors, glass roof, sun visor or Safety Light.
+ Powerful and efficient in tough environments: Front-wheel drive and encapsulated, maintenance-free 80 V AC drive motor
+ Fast service analysis and parameterisation of settings: CAN bus interface
+ Always there when you need it. The innovative lithium-ion batteries are quick and easy to charge and recharge. The RCE 25-35 is also available with a lead-acid battery.
+ Easy and efficient operation: Ergonomically and intuitively designed driver's cab, with all controls in view and within easy reach
+ Driver comfort and ergonomics: The workstation can be flexibly adjusted to different operating conditions

RCE 25-35

Electric forklift truck

up to 6,500 mm

up to 3.5 t

up to 15 km/h

Li-Ion INSIDE

Lead Acid

ECV 10 & ECV 10C / ECV 10iC

Lifting made easy

ECV 10

High lift pallet truck

up to 3,227 mm

up to 1 t

up to 4.8 km/h

Rising high in the tightest of spaces, this compact and manoeuvrable high lift truck is ideally suited for narrow aisle applications such as manufacturing and retail.

ECV 10

+ Turnover performance: Lifting capacity up to 1,000 kg and lift heights up to 3,227 mm
+ Ultimate availability: Built-in charger enables easy charging
+ Manoeuvrable and compact: Small front end allows excellent manoeuvrability and use in narrow aisles

ECV 10C / ECV 10iC

+ Flexible right down to the tips of the forks: From light stacking up to 1,867 mm, to use as a mobile workbench
+ Our most compact pallet stacker: Because of the extremely small front end it impresses even in the tightest working areas
+ High levels of safety: Low chassis frame and speed reduction based on lift height

ECH 12C/ECH 15C

Innovation in motion

ECH 12C/15C

Low lift pallet truck

up to 115 mm

up to 1.5 t

up to 4.5 km/h

The smart alternative to your hand pallet truck – innovative, compact and powerful, ideal for a multitude of applications.

ECH 12C/15C

+ Smart truck dimensions: Compact and low service weight
+ Safe and efficient in tight spaces: Creep speed switch for safe manoeuvring even with tiller in upright position
+ Easy availability: Thanks to the Li-ion battery, which can be recharged via an external charger with a mains plug

Li-Ion INSIDE

OCV 01

For all those aiming high

Li-Ion INSIDE

OCV 01

Multifunctional truck

up to 4,600 mm

up to 0.11 t

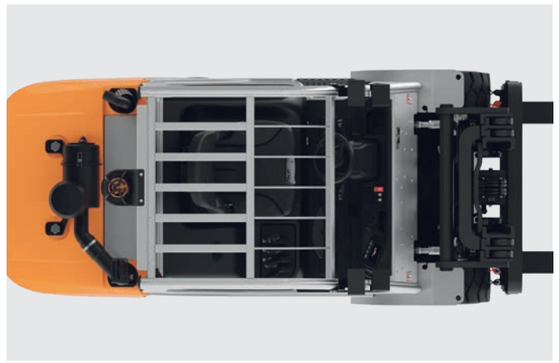

up to 6.5 km/h

A multifunctional truck to support your order picking, inventory or small parts warehouse operations.

+ Compact dimensions: For use in the tightest spaces
+ Always ready for use: Thanks to lithium-ion battery with integrated charger
+ Work on a safe stand-on platform: Up to 4.6 metres working height
+ Optimal protection for operator and environment: Thanks to features such as the STILL Safety Light

RCD/RCG 25-35 Plus

The access to success

Looking for a robust entry-level counterbalanced forklift truck that is always ready to go? Don't want to compromise on STILL's exceptional quality standards? Then this is the truck for you.

+ High performance: Powerful and reliable industrial engine
+ Everything in view: Optimum visibility of forks and load carriers thanks to slim mast profile
+ Maximum safety: Robust overhead guard maximises the operator's visibility in all directions
+ As flexible as our customer's needs: The RCD/RCG is also available in weight classes from 1.5 to 2.0 tonnes and from 4.0 to 5.0 tonnes

RCD/RCG 25-35 Plus

Diesel and LPG forklift truck

up to 6,500 mm

up to 3.5 t

up to 17 km/h

STILL SMART SERVICE

Anytime. Reliable. Fast.

"It's a pleasure working with STILL. The engineers are brilliant, they'll share information with you. We contact STILL on a regular basis and we get endless support from them. It has been a real partnership in every sense of the word."

Heineken, United Kingdom

SIMPLY EFFICIENT.

For all products and portfolios, our customers can always rely on STILL service. And as with every STILL product, our service is also highly cost-effective for you. Easy to use, powerful, reliable, versatile and simple to network with digital systems – our solutions use as little of your valuable economic and human resources as possible. That's why STILL solutions are the key to your economic success.

YOU CAN COUNT ON US. 24/7.

We measure everything we do by our customers' satisfaction. When it comes to the availability of your intralogistics, we know no compromise. A team of more than 3,500 service technicians in Europe is available for you around the clock, just a phone call or a click away.

STILL SERVICE AGREEMENTS.

Availability. Your dedicated STILL team, consisting of a regional manager and service technicians, is available around the clock and – thanks to an extensive service network – there is always someone nearby.

Reliability. Our technical expertise, the high quality and availability of STILL Original Parts®, as well as our international partnerships with parts suppliers, guarantee seamless and successful service, every time.

Speed. We respond immediately to any request. Our standardised, digitally led and optimally planned repairs and servicing processes as well as the overnight delivery of spare parts, enable us to keep downtime to an absolute minimum.

Expert advice. Nothing gets past a STILL service technician. With expert training that allows them to gain a complete overview of your system, they can instantly identify where and how your trucks and warehouse facilities could be improved.

THE XCELLENCE LINE

Get ready for great efficiency.

DO YOU NEED MORE?

Longer shifts? Operations more arduous? Applications more complex? Smart and innovative state-of-the-art solutions a must for you? Then the STILL Xcellence Line is your perfect match. The trucks in this portfolio combine maximum efficiency and customisability. All forklift trucks and warehouse technology in the Xcellence Line have been developed for the most demanding tasks. Be it multi-shift operation, semi or fully automated processes, integration into fleet management systems or special attachments for particularly efficient goods transport.

AS INDIVIDUAL AS YOUR REQUIREMENTS

With a wide choice of different options, perfectly tailored to your application, state-of-the-art assistance systems and intelligent networking features, the STILL Xcellence Line is the smart choice for intralogistics at the highest level.

To find out more about the entire STILL Xcellence Line, click here.

Simply Efficient

Anyone who has to handle intralogistics tasks, needs smart solutions to do so – but choosing the right product is becoming increasingly challenging and time consuming. Thanks to our Simply Efficient principle, you can see the added value of all STILL trucks, software solutions and services from STILL at a glance. The benefits are also always optimally coordinated with each other, so that you always get a solution that offers you maximum cost-effectiveness and is “simply efficient”.

Simply easy

If a solution is smart and easy to use, you will benefit from there being little familiarisation and can reliably avoid damage or time lost to possible operating errors. You can ensure that your workers are able to utilise the full productivity potential quickly and on an ongoing basis.

Simply powerful

Whether it is on ramps or even ground, over long distances or in tight narrow aisles, in the form of trucks with high handling power or innovative software – you will notice that you can move more with our intelligent solutions that are powerful and smart.

Simply safe

The most efficient goods handling is of no use if it is not safe. Rely on smart assistance systems, storage processes and safety training planned by our experienced expert teams to avoid injury to people, damage to goods, data or infrastructure.

Simply flexible

Particularly when requirements are changing dynamically, you need products that allow you to react quickly. Our solutions help you to remain flexible, for example, our trucks can easily be used or adjusted for different applications.

Simply connected

Efficient processes are crucial for cost-effective intralogistics. Trucks that can be networked, accessible software solutions supplied with real time data, and control mechanisms that can be automated help you to always get the best out of your fleet.
